*Open Innovation Contest 11*

Innovation That Matters: Partnering With Startup Companies to Solve Critical Business Challenges

NTT DATA is launching its 11th Open Innovation Contest, providing startups and business around the globe with a unique opportunity to accelerate new technologies that solve real, timely business challenges. We will be matching the best startup companies with client challenges as they propose innovative solutions for a collaborative business with NTT DATA companies.

We're proud to start accepting applications for this year's competition. We invite you to review the challenges in this all-virtual program and submit an entry to the pitch competition. If your startup wins the competition, you will be presented with an exciting opportunity to engage with one of our clients and our own innovation team to develop a business case for a proof of concept of your product. Winners could also have the chance to pitch to global industry leaders and clients of one of the top 10 consulting companies in the world in our grand finale.

September & October:
Accept applications from startup companies

October:
Selection of startup companies for the competition

November:
Startup competition

January 29, 2021:
Grand finale will be held virtually for winning startup companies

November through January:
Engage with winners and client sponsors to develop a program plan

Let's change the world together

Innovation — the ultimate challenge — and it's more important than ever as the COVID-19 pandemic continues to change the way we live and work. We need you to solve these challenges:
