

Chairman of the a technological capital group
TenderHut from Poland

5 Branches in Poland

BIAŁYSTOK

Białowieża Forest - the oldest forest in Europe. It is here that people from all over Poland and the world come to rest. We have it every day.

OLSZTYN

The largest city of the Land of a Thousand Lakes - Mazury. Within its borders there are 15 natural water reservoirs.

SZCZECIN

The city is located on the Odra River and Dąbie Lake in northwestern Poland. Greenery and water cover more than half of the city area.

WROCLAW

A beautiful and romantic city located on the Odra River in south-western Poland. Apparently there are more bridges in it than in Paris.

WARSZAWA

Our command center. It is the capital and business center of Poland, a combination of east and west of Europe, a great location in terms of transport and air connections.

A small orange location pin icon.
